Front-End Developer with over 2 years of experience, specializing in the creation and layout of user interfaces for the web using technologies like React.js, Next.js, JavaScript, TypeScript, and Tailwind CSS. I also have experience using Figma for interface design. I am always open to learning new technologies, have strong communication skills, and work well both in teams and individually.

PROFESSIONAL EXPERIENCE

Wiper Agency   **Buenos Aires, Argentina**
Front-End Developer   *Septembre 2023 – Present*

- I have implemented AI-powered chats in various projects.
- I integrated all the Endpoints provided by the Back-End team with the Front-End.
- I faithfully translate designs created in Figma into code using React.js and Next.js.
- I am responsible for managing the entire Front-End of a large project, as well as other smaller projects within the team.

Grupo MContigo   **Salamanca, España**
Front-End Developer   *April 2022 – June 2023*

- I created documentation for new team members.
- I developed components and widgets using React.js and Next.js.
- I conceptualized designs using Figma and translated them into code with high fidelity.

EDUCATION

DR. RAFAEL BELLOSO CHACÍN PRIVATE UNIVERSITY   **Maracaibo, Venezuela**
Computer Engineering   *Novembre 2019*
Honors: Degree in Computer Engineering and Diploma in Webmaster.

ADDITIONAL SKILLS

- Native in Spanish. Intermediate English.
