About Me

Frontend Engineer with 4+ years building web applications, with a focus on React and Next.js. Experienced in performance, component-based architecture, and leveraging AI tools to ship faster.

Education

Rafael Belloso Chacín University, BS in Computer Engineering – Zulia, Venezuela Jan 2016 – Nov 2019

Experience

Frontend Engineer, TecnoSoftware – Buenos Aires, Capital Federal (Hybrid) Jan 2024 – present

- Developed frontend for internal ATM software using HTML5, CSS3, and JavaScript, building multiple bank-specific versions deployed to 60%+ of the state's ATM network.
- Handled the monitoring and implementation of new software versions across production ATM terminals, ensuring stability and incident tracking.
- Creating technical documentation of the internal software to support onboarding and knowledge sharing across the team.

Frontend Engineer, Wiper Agency – Buenos Aires, Capital Federal (Remote) June 2023 – Jan 2024

- Led all frontend development of the application using Next.js, establishing technical standards and best practices for code quality and maintainability.
- Built an AI-powered chatbot by integrating the team's AI API, optimizing code and performance to improve chat response time by 30%.
- Transformed 3+ full-page Figma designs into responsive, pixel-perfect production interfaces.

Frontend Engineer, Grupo MContigo – Salamanca, España (Remote) Apr 2022 – June 2023

- Designed and implemented 10+ reusable React components from Figma to production code, ensuring pixel-perfect accuracy and consistency across the product.
- Submitted pull requests reviewed by senior developers, incorporating feedback to strengthen code quality and best practices.
- Implemented testing using Jest and React Testing Library to ensure component quality and stability.

Skills

Languages & Frameworks: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js

Testing & Code Quality: Jest, React Testing Library

Tools & Workflow: Git, GitHub, Figma, Vercel, Claude Code, ChatGPT

Methodologies: Agile (Scrum/Kanban), Technical Documentation, Cross-Functional Collaboration

Languages: English: Intermediate; Spanish: Native
