About Me

Frontend React Developer with over 5 years of experience building modern and scalable web applications using React, Next.js, TypeScript, and JavaScript. Specialized in developing intuitive user interfaces, API integrations, performance optimization, and component-based architectures. Passionate about creating high-quality user experiences and leveraging AI-powered tools to accelerate development and deliver efficient, production-ready solutions.

Education

Rafael Belloso Chacín University, BS in Computer Engineering – Zulia, Venezuela Jan 2016 – Nov 2019

Experience

Frontend Engineer, TecnoSoftware – Buenos Aires, Capital Federal Jan 2024 – present

- Developed and maintained frontend applications using React, Vue.js, TypeScript, JavaScript, HTML5, and CSS3.
- Optimized application performance, resolved issues, and continuously improved user experience.
- Implemented new features and integrated REST APIs.
- Collaborated with backend, product, UI/UX, and QA teams in Agile environments (Scrum/Kanban).
- Participated in production deployments, application monitoring, and incident tracking.

Frontend React Developer, Wiper Agency – Buenos Aires, Capital Federal Sept 2023 – Sept 2024

- Led frontend development using Next.js and contributed to projects built with Angular, establishing technical standards and best practices to ensure code quality and maintainability.
- Developed and deployed a production web application featuring an AI-powered chatbot, integrating external APIs and conversational workflows.
- Optimized application performance through efficient rendering strategies, modern frontend development practices, and testing with Jest and React Testing Library.
- Transformed complex Figma designs into responsive, pixel-perfect user interfaces ready for production deployment (UX).
- Collaborated closely with backend, product, and UI/UX teams in Agile environments (Scrum/Kanban), contributing to the definition and implementation of business-driven solutions.
- Utilized generative AI tools to accelerate development, technical documentation, and problem-solving throughout the software development lifecycle.

Frontend React Developer, Grupo MContigo – Salamanca, España

Apr 2022 – Sept 2023

- Developed reusable React components, promoting consistency, maintainability, and development efficiency.
- Implemented responsive, pixel-perfect user interfaces based on Figma designs, with a strong focus on user experience (UX).
- Applied Clean Code principles, component-based architecture, and development best practices to maintain a scalable codebase.
- Implemented testing using Jest and React Testing Library to ensure component quality and stability.
- Documented and validated components using Storybook, improving reusability, collaboration, and visual consistency across teams.
- Created and maintained technical documentation to streamline onboarding and enhance team collaboration in Agile environments.

Skills

Languages & Frameworks: JavaScript (ES6+), TypeScript, React, Next.js, Vue.js, Angular, HTML5, CSS3, Tailwind CSS, Bootstrap, Shadcn/UI, Responsive Design, Frontend Testing

Performance & Architecture: Component-Based Architecture, Rendering Optimization, Code Splitting, Clean Code, State Management

Testing & Code Quality: Jest, React Testing Library, Storybook, Cypress

APIs & Integrations: REST APIs, External API Integration, AI-Powered Features, Authentication Flows

Methodologies & Collaboration: Agile (Scrum/Kanban), Cross-Functional Collaboration, Effective Communication, Technical Documentation, Team Onboarding

Tools & Workflow: Git, GitHub, Vercel, CI/CD Fundamentals, Figma, Chrome DevTools, Visual Studio Code, Postman, Cursor, Claude Code, GitHub Copilot, ChatGPT, Gemini

Languages: English: Intermediate; Spanish: Native
